

Applicant: Donald L. Schilling
Application No.: 10/071,728

REMARKS

Reconsideration of the application, as amended, is respectfully requested. By this amendment, the specification has been amended to call out features in Figure 4 and to state the step of receiving the signal.

In the Office Action, the drawings were objected to as failing to show certain steps. Accordingly, substitute drawing Figure 4 is submitted, showing these steps. These steps are believed to be adequately described in the description and are self-explanatory in the drawing.

The description has been amended to call out the element numbers added to Figure 4, and to call out the "which [CDMA signal] the receiver receives 412 as a spread spectrum communications signal".

With respect to the obvious double patenting rejection of co-pending Application No. 10/072,080, a terminal disclaimer is being filed to overcome that rejection.

Applicant: Donald L. Schilling
Application No.: 10/071,728

Reconsideration and allowance of the claims is respectfully requested.

Respectfully submitted,

Donald L. Schilling

IN THE DRAWINGS:

The attached sheet of drawings includes changes to Fig 4. This sheet replaces the original sheet including Fig. 4. In Fig. 4, element 408, "SPREAD SPECTRUM MODULATED CHIP-CODE-SIGNAL" and element 412, "RECEIVE SPREAD-SPECTRUM COMMUNICATIONS SIGNAL" were added along with their corresponding input and output arrows. For element 408, the arrows were modified to indicate the insertion of element 408 after 407 and prior to 409. For element 412, the arrows were modified to indicate the insertion of element 412 after 411 and prior to 413 and 415.
